

Evolution Solutions

Teaching evolution and inheritance in your classroom

The biologist Theodosius Dobzhansky wrote; *'Nothing in biology makes sense, except in the light of evolution'*

Evolution and inheritance are entering the **primary science curriculum** for the first time in September 2014.

This is an opportunity to take part in a programme of talks and activities developed by two University museums to support primary teachers teaching this subject for the first time.

A full day CPD course
including lunch £50

- Equipping you with the skills and knowledge to teach this confidently in the classroom
- Inspiring ideas for hands-on activities and other resources
- Expert speakers
- How the museums can support you

Wednesday
13th November
2013

The museum has been talking to people about evolution since its opening in 1860, when it hosted the first public debate of Darwin's new idea.
